

The forbidden words according to the NSA or Hasbro

Some words have been deemed to be not suitable for Scrabble play by families. These words are expurgated from the OSPD4 but are included in the OWL2 as they are acceptable for tournament and club play. Whether a word offends depends upon its context and who sees it or hears it. In the game of Scrabble, these words are just more ways to score points. Because we don't want to take all the fun out of word lists we will let you users of this website look up their meanings.

Boldface words were added to the existing forbidden list when OWL2 was published. The older list of forbidden words [roman type] comes from a website listing and the list of the new expurgated words comes from the West Virginia's Scrabble Club website. Remember, all the words listed below are acceptable Scrabble words.

ABO ABOS
ARSE
ASSHOLE ASSHOLES
